About This Game

Guide the dead soul "Alma" through the eight levels of the Aztec underworld to reach the god and goddess of death, so that her soul may find peace. In this beautiful, hand illustrated 2D platformer, each level of the game corresponds to one of the eight levels of the Aztec underworld, Mictlan. Alma is a short and sweet game that provides a colorful daydream for the player to get lost in. And the art style is inspired by Mexican folk art.

Beautiful graphics and hardcore mechanics. Maybe a bit too hard. Great story either way.. Fun little game about an interesting topic. Music and visuals are on point. Gameplay could use work. Only \$2. Works for me.
